PROFI LE

Back-End PHP Laravel Developer with 4+ years of experience in building secure, scalable, and high-performance web applications using PHP, Laravel, and MySQL. Skilled in developing robust backend systems, integrating RESTful APIs, and optimizing database performance. Proficient in frontend technologies including HTML, CSS, Bootstrap, JavaScript, and jQuery to create responsive and user-friendly web applications. Committed to writing clean, maintainable code and following industry best practices to deliver reliable, production-ready solutions.

Experience

- DA Tech

Nazimabad, Karachi

PHP Laravel Developer

November 2024 – Present

 - Working on end-to-end web application development using Laravel and PHP, with database management in MySQL.
 - Integrated RESTful APIs, and implemented dynamic frontend interfaces using HTML, CSS, Bootstrap, JavaScript, jQuery, React Js and AJAX.
 - Focused on building scalable, secure, and responsive web solutions while maintaining clean, efficient code.
- Stallyons Technologies

Gulshan-e-Iqbal, Karachi

PHP Laravel Developer

Feb, 2023 - Oct, 2024

 - Specialized in developing scalable web applications using Laravel with deep integration of PHP and MySQL.
 - Implemented RESTful APIs, AJAX, and Laravel features such as routing, middleware, and Eloquent ORM for dynamic functionality
 - Delivered clean, maintainable code and collaborated with teams to ensure high-performance, responsive Laravel-based solutions.

Projects

- Human Resource Management System (HRMS)

 - Developed a multi-role HR platform (Admin, HR, Employee, Client, Manager) for managing employee records, attendance, payroll, and performance using Laravel and MySQL.
- University Information Management System (UIMS)

 - Built a university portal to manage students, faculty, courses, results, and attendance with secure role-based access using Laravel and MySQL.
- Hi5 Consulting Web Portal

 - Developed a multi-dashboard job portal for HR, Finance, Recruiter, and Sales roles with job posting, application tracking, and internal communication using Laravel.
- Livestreaming Web Platform

 - Engineered a subscription-based livestreaming platform with tiered plans (Gold, Silver, Standard) for controlled content access and user management using Laravel.
